

# **PANIC!**

## **EVERYBODY'S DOING IT!**

### **ABOUT THE SHOW:**

The environment is destroyed! Your country is at war! Your house is worth nothing! Your boyfriend isn't returning your calls! With bad news stories all around, it's hard not to push the panic button. The Second City is here to put it all in perspective.

***Panic! Everybody's Doing It!*** is a sketch comedy revue in the Second City style – fast-paced, topical, theatrical and professional. The show features multiple Canadian Comedy Award-winning actors performing the best scenes and songs from The Second City's history, as well as original satire ripped from today's headlines.

Through a series of short scripted scenes, songs and interactive bits, the cast of 6 and a live musician explore topics that are on Canadians' minds: the economy, international conflict, the battle of the sexes, our online world, the environment, and more. These master satirists turn these heady topics into fodder for hilarious sketches that will make the audience laugh – and think – about the world around us. The show is guaranteed to be topical as we change up the sketches with each performance to reflect current events.

The Second City is famous for improvised comedy; naturally, this show will include an interactive improv portion which will get audiences involved in the fun! Audience members provide suggestions for scenes that we make up on the spot, and a handful of willing volunteers can even join us on stage to help out.
