Classic Albums Live presents . . .
Pink Floyd's Dark Side of the Moon
Imperial Theatre — Sunday, November 1 at 8 p.m.

Remember when you used to listen to an entire album? **Classic Albums Live** does. In a thrilling concert for all **Pink Floyd** fans, **Dark Side of the Moon** will be recreated live on stage cover to cover, note for note, and cut for cut, by top-notch musicians who will blow you away! On Sunday, November 1 at 8 p.m. at Imperial Theatre, hear all your favourite Dark Side of the Moon tunes including *Money*, *Time* and *Eclipse* — and more great Pink Floyd hits!

Let the great **Dark Side of the Moon** album reveal itself through **Classic Albums Live** to remind us of the ongoing relevance of the musical genius that originally prevailed when the album was first released in 1973. Since then, it has become one of the most successful albums of all time, selling over 35 million copies and now listed in the Guinness Book of World Records for being on the charts longer than any other album in history — 591 consecutive weeks or 11.4 years in Billboard top 200!

Classic Albums Live chooses only truly classic multi-million sellers, researching each album and picking just the right musicians and singers for each show — up to 20 performers to get the absolute best performance possible. A result of the Baby Boomer generation's endless appetite for nostalgia, and the generations that follow who thirst for what rock and roll is really about, **Classic Albums Live** feeds that appetite with some of the most impressive shows imaginable. These incredible, inspired recitals are becoming a North American phenomenon that's quite simply amazing and you'll be among the amazed as you witness this stunning recreation. The resulting show is performed like a rock symphony, not unlike a Philharmonic Orchestra presenting Bach.

Once the first track kicked into gear, it hit me. What was going on was just what the promos said would happen. The execution . . . was flawless, note-for-note. You could close your eyes and hear the actual album, and you could open them and see a live band executing it perfectly. — The Daily Gleaner, Fredericton
